26. LIAISON Received a call from Pat Norton, Senate Select Committee on Intelligence staff, who said the Subcommittee on Energy and the Environment, House Committee on Interior and Insular Affairs, had asked for access to transcripts of Agency testimony before the JCAE on the [redacted] case. The Agency officials involved were former DCI Richard Helms and former DDS&T, Carl Duckett. I agreed to look into this for Norton.

The diagram consists of several nested rectangles and lines. A large outer rectangle is divided into four quadrants by a central vertical and horizontal line. The top-left quadrant contains a small horizontal rectangle near the top edge. The bottom-left quadrant contains a small horizontal rectangle near the bottom edge. The bottom-right quadrant contains two horizontal rectangles, one near the top and one near the bottom. The top-right quadrant is mostly empty but features a long horizontal line extending from its left boundary towards the right.
